#### Our Vision

To give our customers an energy abundant future by harnessing the potential of the environment in a safe and sustainable manner.

#### Our Mission

We aim to be the leading renewable energy solutions company of Pakistan, with a turnover exceeding Rs.10 billion by 2020. We will achieve this by resolutely following our Core Values and by:

- Anticipating customer needs and consistently optimizing our products & services.
- Building strategic partnerships with technology suppliers, vendors and financial institutions.
- Becoming the employer of choice and developing a culture that inspires performance, excellence and teamwork.

## DAWOOD LAWRENCEPUR LIMITED DIRECTORS' REVIEW REPORT

FOR THE QUARTER ENDED MARCH 31, 2020

The Directors are pleased to present their report together with the unaudited unconsolidated condensed interim financial statements of the Company and the unaudited consolidated condensed interim financial statements of the Group for the period ended March 31, 2020.

#### **BUSINESS REVIEW**

#### **Renewable Energy Business**

Following the renewal of the SBP Green Financing Scheme last year, Reon opened the year strongly with a robust deal pipeline and looked set to extend its progression in the current year. However with the onset of COVID 19 pandemic and the consequential industrial and commercial lockdown, the outlook for the year became very uncertain. Due to compressed demand, most customers are awaiting lifting of lockdown and the normalization of activity to finalize the orders. However, even during these uncertain times, Reon was able to secure deals of 7.5MW.

The impact of plummeting oil prices is yet to be seen on the local energy prices which had witnessed a rise last year when the power tariff for all consumers was raised by PKR 3 due to removal of PM's subsidy. The rising energy prices created a favorable environment for Reon's core business as Solar PV is seen as a hedge against increasing energy prices.

On the regulatory front, Government of Pakistan had shared its draft Renewable Energy Policy for comments. Overall objective has been to increase contribution from renewable sources to 30% of the installed capacity by 2030. While this represents a major shift in priorities for the Federal Government, details of how this target will be achieved are yet to be developed. We believe that Solar PV will constitute a lion's share of the incremental capacity between now and 2030 due to its inherent flexibilities both in front and behind the meter. Storage will also play an important role towards helping integrate a higher percentage of intermittent renewable sources in the long term. We foresee Solar PV and Storage solutions competing with gas peaker plants in the country by 2022 based on their ever improving cost curves and efficiencies.

In the wake of the COVID 19 pandemic, the company took a number of steps to ensure the safety and health of its employees and workers. From the appearance of the first COVID case in Pakistan, necessary steps were taken both at offices and in the field. Later on, work-from-home for all office based staff was made mandatory, while employees were demobilized from site. As the lock down is lifted by the Government, the Company will recommence mobilization keeping safety and health of its employees as an utmost priority.

#### **Wind Energy Project**

Despite the situation arising out of COVID-19 lockdown, the Plant operated satisfactorily during the quarter and is meeting the expected targets for availability and BOP loss. The BOP Loss for the period was 1.01 % against a target of 2.5 %, whilst the Availability was 98.84 % against a target of 98.0 %. Health Safety and the Environment (HSE) remained the priority and 387,809 safe man-hours have been clocked since COD with zero injury rate and TRIR. The plant has been operating safely, without injury, for 1,280 days.

The plant, together with Dawood HydroChina and Zephyr, is now supplying power to K Electric on an ongoing dispatch basis. This arrangement is providing stable operations and both grid outage and curtailment has substantially reduced. The total NPMV for Q1 2020 was 0.03 GWh as compared to 0.78 GWh for Q4 2019. The total energy billed during the current quarter (25.13 GWh) is at the P75 level (25.16 GWh). The Plant experienced unusually high winds during this quarter. It is expected that the NPMV events will be minimal during 2020.

During the current quarter the average wind speed observed was 6.3 m/sec, which is higher than the P75 wind speed of 6.05 m/sec. The trend of the wind speed has altered appreciably, with lower wind during the summer months and substantially higher winds during the winter months. This trend was observed in January and February, but the March wind speeds were at the P90 value. This downward trend in continuing in April 2020.

During the three-month period ended March 31, 2020, dividend income from associate - Dawood Hercules Corporation Limited amounted to PKR Nil against PKR Nil million for the period ended March 31, 2019.

Consolidated revenues for the period were PKR 1,196.06 million as against PKR 1,298.74 million for comparative period. This was mainly due to decrease in revenue from solar energy projects amounting to PKR 349.62 million set off partially by an increase in revenue from the wind energy subsidiary amounting to PKR 158 million. After considering, the share of loss from associate of PKR 45.73 million (March 31, 2019: share of profit of PKR 259.29 million), the consolidated profit after tax for the three month period stood at PKR 15.13 million as against PKR 209.41 million for the similar period last year. Consolidated (loss) / earnings per share attributable to the owners of the Holding Company was (PKR 0.45) as against PKR 3.56 for the comparative period last year.

#### **FUTURE OUTLOOK**

#### **Renewable Energy Business**

The governments' objective in the current situation remains avoiding large market disruptions, limiting layoffs, keeping businesses solvent and providing for the vulnerable, yet managing the health shock. While dramatically low oil and commodity prices coupled with low demand could conceivably balance out the decline in exports there are other looming challenges at a regional and global level which make the macro economic future uncertain. At this juncture the full impact of the Covid 19 disruptions on the overall economy in general and on the solar business in particular, is yet to unfold. Whereas, any decrease in energy demand and cash contraints faced by locked down industries are likely to decrease the overall demand for solar during the year, the longer term case for clean energy remains extremely robust given especially developing competitiveness of energy storage solutions. Government policy is also beginning to recognize this development.

Renewal of SBP Financing for a further period of 3 years had been major positive development for the renewable industry and will certainly help bridge the funding gap for customers interested in EPC and O&M Services. However, delays in the allotment of financing limits to commercial banks is resulting in a delay in

finalization of deals as customers are waiting for a go ahead from Banks on the financing before committing themselves to any contract.

#### **Wind Energy Project**

The wind power sector is still facing the full impact of the circular debt and payments from the Government are severely curtailed, with the outstanding payment at 6 months level. This is likely to continue as the Government is delaying the introduction of sukuk / bonds to raise the requisite funds even though the circular debt has reached PKR 2.0 trillion. The cash flow situation for CPPA has also deteriorated due to the coronavirus epidemic as the collections have reduced appreciably. However, CPPA is making the payments for tax and debt repayment obligations on priority. Challenges loom as fund availability with the power purchaser (CPPA) is likely to be further constrained in view of the relief measures announced by the Government for payment of utility bills.

Concurrently the government is now actively pushing for a reduction in the cost of energy from IPPs without pursuing the long delayed restructuring and reform of the transmission and distribution sectors. The main emphasis is on elimination / reduction of the capacity payment charges for the thermal plants and a reduction in the applicable tariff for all power plants. There are meetings scheduled for April 16 and 17. It is after these meetings that more clarity will be obtained on the Government's approach. Any forced resolution is likely to set a bad precedent and give rise to a distrusting environment for any investment in the country.

The tariff bidding process has still not fully evolved, and this is a cause of concern for the developers. This process will be clarified once the new renewable energy policy is issued. The introduction date of the policy is still uncertain as the draft is not being accepted by the Provinces. The government has issued 7 LOI for wind-solar hybrid installations. These are being affected as there is no clarity on the tariff that will be available.

## DAWOOD LAWRENCEPUR LIMITED NOTES TO THE UNCONSOLIDATED CONDENSED INTERIM FINANCIAL STATEMENTS (UNAUDITED) FOR THE QUARTER ENDED MARCH 31, 2020

#### (Amounts in thousand)

#### 1 LEGAL STATUS AND OPERATIONS

- 1.1 Dawood Lawrencepur Limited (the Company) was incorporated in Pakistan in the year 2004 as a public listed company. It was formed as a result of a Scheme of Arrangement for Amalgamation in terms of the provisions of the repealed Companies Ordinance, 1984 (now Companies Act, 2017) between Dawood Cotton Mills Limited (DCM), Dilon Limited (DL), Burewala Textile Mills Limited (BTM) and Lawrencepur Woolen and Textile Mills Limited (LWTM). The shares of the Company are listed on Pakistan Stock Exchange. The Company manages investment in its subsidiaries and associated companies and is engaged in the business of trading and marketing of renewable energy solutions, mainly solar, to commercial and industrial consumers, along with the legacy textile business. The registered office of the Company is located at 3rd Floor, Dawood Centre, M.T. Khan Road, Karachi.
- 1.2 In prior years, the Company suspended operations of LWTM, BTM, DL and DCM. Land, building, plant and machinery and related assets of DL, DCM, LWTM and BTM were disposed off.
- 1.3 The 'Lawrencepur' brand name continues to operate under license.
- 1.4 On 11 March 2020, the World Health Organization declared Coronavirus disease (COVID-19) a pandemic, and its spread has gained momentum. As at March 31, 2020, COVID-19 has spread throughout the country and lockdowns have been imposed in most parts of the country. The measures taken to reduce the spread have resulted in an overall economic slowdown and disruptions to various businesses, including decline in equity valuations on Pakistan Stock Exchange. The Government of Pakistan and State Bank of Pakistan have announced several monetary and fiscal policy measures to mitigate the adverse economic impacts of the COVID 19. The aforementioned measures have also affected the business operations of the Company significantly in the form of disruption to normal course of business. As this is still an evolving situation at the time of issuing these condensed interim financial statements, the overall impact on the Company's financial position cannot be estimated with reasonable certainty.

#### 2 BASIS OF PREPARATION

- 2.1 This unconsolidated condensed interim statement of financial statements of the Company for the quarter ended Mar 31, 2020 is unaudited and has been prepared in accordance with the requirements of the International Accounting Standard 34 'Interim Financial Reporting' and provisions of and directives issued under the Companies Act, 2017 (the Act). In case where requirements differ, the provisions of or directives issued under the Act have been followed. This unconsolidated condensed interim statement of financial statements does not include all the statements required for annual financial statements and therefore should be read in conjunction with the audited annual financial statements of the Company for the year ended December 31, 2019.
- 2.2 The preparation of this unconsolidated condensed interim statement of financial statements in conformity with the approved accounting standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.
- 2.3 During the preparation of this unconsolidated condensed interim statement of financial statements, the significant judgements made by management in applying the Company's accounting policies and the key sources of estimation and uncertainty were the same as those that were applied to audited financial statements of the Company for the year ended December 31, 2019.

#### 3 ACCOUNTING POLICIES

3.1 The accounting policies and the methods of computation adopted in the preparation of this unconsolidated condensed interim statement of financial statements are consistent with those applied in the preparation of the audited financial statements for the year ended December 31, 2019, except for IFRS 15 "Revenue from contract with customers" and IFRIC 22 "Foreign Currency Transactions and Advance Consideration", which become applicable during the period. The adoption of these accounting standard and amendments did not have any significant effect on the unconsolidated condensed interim financial statements.

- 3.2 There are certain other International Financial Reporting Standards, amendments to published standards and interpretations that are mandatory for the financial year beginning January 1, 2020. These are considered not to be relevant or have any significant effect on the Company's financial reporting and operations and, therefore, not disclosed in this unconsolidated condensed interim financial statements.
- 3.3 Taxes on income in the interim period are accrued using tax rate that would be applicable to expected total annual profit or loss.

#### 13. FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS

#### 13.1 Financial Risk Factors

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

There have been no changes in the risk management policies during the period, consequently this unconsolidated condensed interim statements does not include all the financial risk management statements and disclosures required in the annual financial statements.

#### 13.2 Fair value estimation

The table below analyses financial instruments carried at fair value by valuation method. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (level 2); and
  - Inputs for the asset or liability that are not based on observable market data (level 3).

- On 11 March 2020, the World Health Organization declared Coronavirus disease (COVID-19) a pandemic, and its spread has gained momentum. As at March 31, 2020, COVID-19 has spread throughout the country and lockdowns have been imposed in most parts of the country. The measures taken to reduce the spread have resulted in an overall economic slowdown and disruptions to various businesses, including decline in equity valuations on Pakistan Stock Exchange. The Government of Pakistan and State Bank of Pakistan have announced several monetary and fiscal policy measures to mitigate the adverse economic impacts of the COVID 19. The aforementioned measures have also affected the business operations of the Group significantly in the form of disruption to normal course of business. As this is still an evolving situation at the time of issuing these consolidated condensed interim financial statements, the overall impact on the Group's financial position cannot be estimated with reasonable certainty.

#### 2. BASIS OF PREPARATION

differ from these estimates.

- 2.1 These consolidated condensed interim financial statements of the Group for the quarter ended March 31, 2020 are unaudited and has been prepared in accordance with the requirements of the International Accounting Standard (IAS) 34 'Interim Financial Reporting' and provisions of and directives issued under the Companies Act, 2017 (the Act). In case where requirements differ, the provisions of or directives issued under the Companies Act, 2017 have been followed. These consolidated condensed interim financial statements should be read in conjunction with the audited consolidated financial statements of the Group for the year ended December 31, 2018.
- 2.2 The preparation of these consolidated condensed interim financial statements in conformity with the approved accounting standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Holding Company's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances. Actual results may
- 2.3 During the preparation of these consolidated condensed interim financial statements, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation and uncertainty were the same as those that apply to the consolidated financial statements of the Group for the year ended December 31, 2019.

#### 3. BASIS OF CONSOLIDATION

- 3.1 The condensed interim financial statements of the subsidiary companies has been consolidated on a line by line basis. The carrying value of investments held by the Holding Company is eliminated against the subsidiaries' share capital and pre-acquisition reserves.
- 3.2 Non-controlling interest has been presented as a separate item in this consolidated condensed interim financial statements. All material intercompany balances and transactions have been eliminated.
- 3.3 The consolidated condensed interim financial statements is presented in Pakistan Rupees, which is the Holding Company's functional currency. Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the date of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the statement of comprehensive income, except where such gains and losses are directly attributable to the acquisition, construction or production of a qualifying asset, in which case, such gain and losses are capitalized as part of the cost of that asset.

#### 4. ACCOUNTING POLICIES

- 4.1 The accounting policies and the methods of computation adopted in the preparation of these consolidated condensed interim financial statements are consistent with those applied in the preparation of the financial statements for the year ended December 31, 2019.
- 4.2 There are certain new International Financial Reporting Standards, amendments to published standards and interpretations that are mandatory for the financial year beginning January 1, 2020. These are considered not to be relevant or have any significant effect on the Group's financial reporting and operations and, therefore, not disclosed in these condensed interim consolidated financial statements.

#### 9. SEGMENT REPORTING

- 9.1 A business segment is a group of assets and operations engaged in providing products that are subject to risks and returns that are different from those of other business segments. The management has determined the operating segments based on the information that is presented to the Board of Directors of the Group for the allocation of resources and the assessment of performance. Based on internal management reporting structure and products produced and sold, the Group is organized into the following operating segments:
  - Renewable energy solutions;
  - Textile discontinued operations; and
  - Alternate Energy.

Management monitors the operating results of the abovementioned segments separately for the purpose of making decisions about resources to be allocated and of assessing performance. Segment performance is evaluated based on the operating profit or loss which in certain respects, as explained in table below, is measured differently from the profit and loss in the consolidated financial statements. Segment results and assets include items directly attributable to a segment.

#### 9.2 Segment analysis is as under:

|  | Renewab   | e energy     | Textile - discontinued operations Alternate Energy |              | Energy     | Unallocated  |            | Total        |            |              |
